Objective Summary

I am a third-year Artificial Intelligence student specializing in Data Science and Analysis. I apply Python (Pandas, NumPy), SQL, and Excel to explore, clean, and interpret data effectively. I build machine learning models, develop analytical dashboards, and deliver insights that support decision-making. I constantly seek opportunities to grow my technical and problem-solving skills through real-world projects. My goal is to contribute to data-driven organizations by turning raw data into valuable, actionable knowledge.

EDUCATION

Faculty of Artificial Intelligence 2023

Focus: Data Science & Data Analysis

PROJECTS

- Data Analysis Project (Housing Data) 2024.03 – 2024.04
Analyzed 10,000+ records using Python (Pandas, NumPy) to find pricing trends.
- Sales Dashboard Project 2024.07
Built Excel dashboard visualizing 3 years of sales and KPIs for performance tracking.
- Machine Learning Prediction 2024.03 – 2024.04
Developed a supervised ML model in Scikit-learn with 87.4% accuracy.
- SQL Data Exploration 2024.04 – 2024.05
Used SQL queries to extract and aggregate structured data into business reports.
- Portfolio Website 2024.06
Designed and deployed personal portfolio using HTML, CSS and GitHub Pages.

INTERNSHIPS / TRAINING

Creativa Data Analysis Program April 2024

- Completed 35-hour training on Data Analysis using SQL.

SKILLS

Programming Python (Pandas, NumPy), C++

Data Tools SQL, Microsoft Excel

Web HTML, CSS, GitHub Pages

Design Adobe Photoshop

Languages Arabic (Native), English (Very Good)

AWARDS & RECOGNITIONS

AIEC Club Member 2024 – 2025

Kayan Foundation Volunteer 2025
