Career Objective

AI student specializing in Data Science and Analysis, skilled in Python, SQL, and Excel for data processing and visualization. I develop dashboards to deliver actionable insights. My goal is to help organizations make data-driven decisions effectively.

EDUCATION

Faculty of Artificial Intelligence, Menoufia University — *B.Sc. in Artificial Intelligence*
Focus: Data Science & Data Analysis | 2023 – Expected 2027

PROJECTS

- Sales Dashboard Project 2024.07
Built Excel dashboard visualizing 3 years of sales and KPIs for performance tracking.
- Portfolio Website 2024.06
Designed and deployed personal portfolio using HTML, CSS and GitHub Pages.
- SQL Data Exploration 2024.04
Used SQL queries to extract and aggregate structured data into business reports.
- Data Analysis Project (Housing Data) 2024.03
Analyzed 10,000+ records using Python (Pandas, NumPy) to find pricing trends.
- Machine Learning Prediction 2024.03
Developed a supervised ML model in Scikit-learn with 87.4% accuracy.

INTERNSHIPS / TRAINING

Creativa Data Analysis Program *April 2024*

- Completed 35-hour training on Data Analysis using SQL.

SKILLS

Programming: Python (Pandas, NumPy) – Advanced | C++ – Intermediate

Data Tools: SQL – Advanced | Microsoft Excel – Advanced

Web Development: HTML, CSS, GitHub Pages – Intermediate

Design: Adobe Photoshop – Intermediate

Languages: Arabic – Native | English – Very Good

AWARDS & RECOGNITIONS

Kayan Foundation Volunteer *2025*

AIEC Club Member *2024 – 2025*
